

expert SCRUM master certified (ESMC™)

Expert Scrum Master Certified (ESMC™) is relevant for professionals who are experienced in handling complex Scrum projects and in facilitating the work of Scrum Teams.

Expert Scrum Master Certified (ESMC™)

In a nutshell...

In this course, [Expert Scrum Master Certified \(ESMC™\)](#) professionals will

- Familiarize themselves with the roles, concepts, advantages, and challenges of the Scrum methodology.
- Be equipped with the knowledge needed to play the role of a Scrum Master in their organizations and help their organizations adopt Scrum methodology.
- Gain knowledge pertaining to and be able to anticipate issues related to the practical implementation of Scrum.
- Be armed with the proper tools to address, resolve, and take the lead on Scrum issues in their organizations.
- Have an in depth understanding of the role of a Scrum Master in the Scrum framework.
- Be able to address issues and challenges faced on a day to day working as a Scrum Master.
- Be well prepared to be effective Scrum Masters and coach people in Scrum.

Can I attend?

This certification is appropriate for professionals who are experienced in facilitating Scrum Teams and take ownership of complex Scrum implementations.

Are there prerequisites?

The aspirants should have a minimum of 3 years' experience in managing Scrum/Agile projects and have SMC™, SAMC™, and SPOC™ certifications.

Course Outline

1. Scrum Overview
2. Scrum Principles
3. Scrum Aspects
4. Scrum Phases
5. Scaling Scrum
6. Scrum Mock Project Exercise
7. Agile Overview
8. Domains of Agile Practices
9. Agile Techniques
10. Comparison of Agile Methods
11. Best Fit Analysis and Blitz Planning

Course Methodology

- A highly engaging course that ensures higher retention of concepts and theories.
- Students are encouraged to work through the concepts rather than just listen to the concepts, allowing for better internalization of concepts.
- Role-plays are conducted and practical implementation issues are discussed for all parts of the Scrum flow.
- A central case study is integrated into the course outline to allow students to simulate a product development exercise using Scrum methodology.
