# DWDPROJECTS

SCRUM master certified (SMC™)

Gain a practical, working knowledge of Scrum that equips you to implement and work in a Scrum environment

SCRUM master certified (SMC™)

In a nutshell…

In this course, Scrum Master Certified (SMC®) professionals will
- Gain a practical, working knowledge of Scrum that equips them to implement and work in a Scrum environment
- They will be equipped as facilitators to be able to ensure that the Scrum Team is provided with an environment conducive to completing the project successfully
- They will be in a position to guide, facilitate, and teach Scrum practices to everyone involved in the project; to clear impediments for the team; and, ensure that Scrum processes are being followed.

The SBOK Guide, which the SMC course is based on, can be used as an effective guide for implementation.

The successful completion of the exam confirms that applicants have achieved sufficient understanding of how to apply Scrum in the projects and to tailor Scrum in a particular scenario.

Can I attend?

Appropriate for anyone interested in working as a Scrum Master or for someone who is already a Scrum master in his organization. Scrum Master is an important role in any Scrum team and need not be a technology expert to be effective. Moreover, although Scrum is popular in the IT industry, it can be used effectively across different industries.

Are there prerequisites?

There are no formal prerequisite for this certification.

Course outline
