

SCRUM product owner certified (SPOC®)

Scrum Product Owner Certified (SPOC®) is relevant for Product Owners and experienced practitioners who represent business interests in a project.

SCRUM product owner certified (SPOC®)

In a nutshell...

In this course, Scrum Product Owner Certified (SPOC®) professionals will

- Gain practical and working knowledge of Scrum that equips them to handle the business aspects and stakeholders in a Scrum environment.
- Understand that they represent the interests of the stakeholders in the Scrum Team.
- Learn how, as the 'the voice of the customer', they are responsible for ensuring clear communication of product or service functionality requirements.
- Learn how to define Accepting Criteria and ensure that it is met.

Can I attend?

This certification is appropriate for anyone who interacts with a Scrum Team, provides business requirements, or manages the business aspects of a project.

Are there prerequisites?

There is no prerequisite for this certification. However, SDC® or SMC® certified professionals will be able to better understand the concepts required for this certification.
