

BAAIC Course Outline

What you will learn

The Business Analysis with AI Certified (BAAIC™) course is designed to help professionals leverage Artificial Intelligence techniques within the business analysis framework to enhance data-driven insights, streamline requirements gathering, improve decision-making, and optimize business outcomes. This program integrates core business analysis principles with AI-powered tools and practices, enabling analysts and organizations to automate data interpretation, predict trends, identify opportunities, and deliver more strategic, evidence-based solutions that align with business objectives.

Audience Profile

Anyone interested in knowing more about Business Analysis and Agile with AI can take up this course and exam for free.

Prerequisites

Anyone interested in knowing more about Business Analysis and Agile with AI can take up this course and exam for free.

What is included

- High quality videos, study guides, chapter tests, and case study
- High quality hands-on training using role-plays and case-studies
- Course fee includes certification exam fee
- Complimentary copy of the BARG™ Guide

Examination Format

- No examination is required for the BAAIC™ certification. After completing the Vabro.ai demo, participants are requested to upload a picture of the Kanban Board they created using their own AI prompt.

Course Outcomes

By the end of this course, participants will be able to:

- Explain the purpose, framework, roles, and benefits of Business Analysis in organizational decision-making.

- Identify and analyze key Business Analysis roles and responsibilities within a structured BA framework.
- Apply a systematic Business Analysis workflow using Vabro.ai for requirements gathering and process execution.
- Configure and use AI-driven templates, Kanban boards, task groups, and tasks to support Business Analysis activities.
- Collaborate effectively with stakeholders using AI-powered forms and workflow tools to capture and manage requirements.
- Design and execute an end-to-end Business Analysis requirements-gathering process using AI prompts and automation tools.

Course Methodology

- We promise a highly engaging course that ensures high retention of concepts and theories.
- Students are encouraged to work through the concepts rather than just listen to them—this provides better internalization and retention.
- Students work through a case study to simulate business analysis using the Business Analysis Framework.

Course Outline

1. Business Analysis(BA) Overview and Why use BA

- Important Roles in Business Analysis
- Overview of Business Analysis(BA) Framework
- Benefits of Business Analysis

2. Practice a Business Analysis Workflow with Vabro.ai

- Steps to prepare for the Vabro.ai demo
- Setting up your Vabro.ai account
- Using AI Template to Set Up a Business Analysis Requirements Gathering Workflow
- Understanding the BA Kanban Board
- Exploring Task Groups and Tasks
- Collaborating using AI-powered Forms
- Business Analysis Requirements Gathering Workflow in Action – A Complete Process Walkthrough
- Create entire BA process with your AI prompt

About BALearning™

BALearning™, a brand of VMEdU, Inc., is a global leader in Business Analysis education and certification. We created the Business Analysis Reference Guide (BARG™)—a practical, accessible, and scalable framework designed to help organizations and professionals implement effective Business Analysis across industries and project types.

Our mission at BALearning™ is to empower individuals and organizations by simplifying the learning and application of Business Analysis. Whether you are new to the field or an experienced practitioner, our goal is to make Business Analysis engaging, relevant, and results-driven.

With a presence in over 50 countries and a network of 2,000+ Authorized Training Partners, BALearning™ is transforming the way professionals approach Business Analysis. Our ecosystem includes free access to learning resources, practical AI-enabled tools, and advanced certification programs that enable learners to apply their knowledge in real-world environments.

BALearning™ is proud to be part of the larger VMEdU family, which includes respected brands such as ScrumStudy.com, KanbanStudy.com, and OKRStudy.com. With more than 2 million students and a LinkedIn community of over 300,000 members, we are dedicated to making business success achievable for everyone.

Our key certifications include Business Analysis Fundamentals with AI Certified (BAFC), Business Analysis with AI Certified (BAAIC), Business Analysis Essentials with AI Certified (BAEC), Business Analysis Professional with AI Certified (BAPC), Business Analysis Leader with AI Certified (BALC), and Business Analysis Consultant with AI Certified (BACC).

BA Learning™ Certification Hierarchy

BA Learning™ certified professionals enable organizations to make better decisions, streamline processes, and deliver business outcomes that enhance efficiency and return on investment. With strong knowledge of Business Analysis principles, certified individuals can effectively handle real-world challenges such as stakeholder engagement, requirements management, and strategic alignment.

While most BA Learning™ certifications do not have strict prerequisites, following the recommended certification hierarchy supports logical progression and long-term success. The diagram below illustrates a clear pathway—starting with core fundamentals and advancing toward specialized and consultant-level expertise.
